CAREER OBJECTIVE

To pursue a challenging career as a Software Engineer specializing in full-stack development and AI-integrated systems, where I can apply my skills in Laravel, React, FastAPI, and modern AI technologies (LLMs, NLP, and automation frameworks) to build scalable and impactful solutions. I aim to contribute to innovative, production-grade software systems while continuously improving my technical and problem-solving abilities. With a strong interest in intelligent web platforms and enterprise-level applications, I am motivated to grow in a dynamic, international work environment and contribute to building efficient, user-focused, and AI-driven digital products for organizations worldwide.

EDUCATION

- | | |
|--|-------------------------------|
| Dhaka University of Engineering & Technology (DUET), Gazipur
<i>B.Sc. in Computer Science and Engineering</i>
GPA: 3.26 / 4.00 | <i>Nov, 2021 – Oct, 2025</i> |
| Infra Polytechnic Institute, Barishal
<i>Diploma in Engineering (Computer Technology)</i>
GPA: 3.59 / 4.00 | <i>June, 2015 – July 2019</i> |

PROFESSIONAL EXPERIENCE

- | | |
|---|---------------------------------------|
| – AI-Driven Software Engineer & Web Developer
Sagbrain, Bangladesh
Developing intelligent web platforms integrating multimodal AI and LLMs for automated verification, skill scoring, and recruitment. Building full-stack systems using React, Next.js, FastAPI, and PostgreSQL, including the implementation of AI-driven KYC verification, anti-fraud identity fingerprinting, and production-grade integrations with Gemini and ChatGPT APIs. | <i>March, 2026 – June, 2026</i> |
| – Backend API Development Intern (Intern)
Sagbrain, Bangladesh
Developed RESTful APIs using FastAPI with PostgreSQL and SQLAlchemy. Designed scalable backend architecture, implemented authentication systems, optimized database queries, and ensured clean API documentation. | <i>3 Months</i> |
| – PHP Full Stack Web Developer
Moonsoftbd, Bangladesh
Developed and maintained robust full-stack web applications utilizing PHP and related frameworks. Implemented dynamic frontend interfaces, designed scalable backend architectures, and ensured seamless database integration for optimized application performance. | <i>October, 2024 – November, 2025</i> |
| – Laravel Full-Stack Web Developer (Intern)
Brain Station 23, Bangladesh
Worked on developing and maintaining full-stack web applications using Laravel. Contributed to backend development, database design, API integration, and frontend implementation following industry best practices. | <i>2 Months</i> |

TECHNICAL SKILLS

- **Programming Languages:** PHP, JavaScript, Python, SQL, C++, C
- **AI Tools:** Openai, Gemini, Claude
- **Backend Frameworks:** Laravel, Livewire, Filament, FastAPI
- **Frontend Technologies:** React.js, HTML5, CSS3, Bootstrap, Tailwind CSS
- **IT Support & Infrastructure:** Hardware troubleshooting, Windows OS Administration, MS Office Suite, Printer configuration.
- **Enterprise Software:** ERP Software configuration, POS Systems, System Performance Monitoring, Software Testing & Debugging.
- **Databases:** MySQL, PostgreSQL

- **DevOps & Tools:** Docker
- **Version Control:** Git, GitHub
- **Web Hosting & Panels:** cPanel, Plesk
- **CMS:** WordPress
- **Design & Diagramming:** Lucidchart
- **Research Skills:** Data Preprocessing, Experimental Design, Result Analysis

TRAINING & WORKSHOPS

- **AI & ML Engineering** *May, 2026 - Present*
Institution: Ostad
Duration: 7 Months
 Python Programming, Mathematics, Statistics, Natural Language Processing (NLP), Natural Language Understanding (NLU), Computer Vision (CV), Large Language Models (LLMs), LangChain, Vector Databases, and Explainable AI (XAI).
- **Bangladesh Japan IT Engineer Training Program (B-JET)** *2025*
Institution: B-JET
Duration: 6 Months
 Completed intensive professional training in cross-cultural communication, workplace etiquette, and language skills to prepare for engineering roles in international, multicultural teams.

PROJECTS

- **Recruitment Automation Platform — Multi-Phase Process Automation** *Recruitment Automation Platform*
 Designed and developed a full-scale multi-phase recruitment system for an international exchange and training program. The system manages end-to-end applicant flow from registration to final selection, including AI-based CV scoring, coding tests, automated video interviews, language proficiency test integration (Manabo API), human interviews, ideathon evaluation, and payment verification. It supports role-based institute administration, batch management, real-time notifications, external service integrations (AWS S3, SES, Claude AI, Google Meet), and fully configurable recruitment pipelines across up to nine selection phases.
Tools Used: Next.js, TypeScript, PostgreSQL + Prisma 6, NextAuth.js v5 (GitHub / Google OAuth), Vercel AI SDK + OpenAI / Google Gemini (swappable), Docker.
- **RemotePool – Talent & Workforce Management Platform** *RemotePool System*
 Analyzed and designed a comprehensive remote hiring and workforce management platform. Developed requirements for recruitment, contract management, payroll, assessments, performance tracking, and SaaS investment modules. Implemented role-based workflows, authentication systems, AI-driven features, and third-party integrations.
Tools Used: Next.js, TypeScript, PostgreSQL + Prisma 6, NextAuth.js v5 (GitHub / Google OAuth), Vercel AI SDK + OpenAI / Google Gemini (swappable), Docker.
- **Wakuwaku Link - Language Learning Platform API Project** <https://github.com/raihan-sagbrain/wakuwakulink>
 Wakuwaku Link is a language-learning platform for both individual learners and corporate clients. It offers structured proficiency-level courses, live lessons with certified instructors, AI-based speech and writing evaluation, progress tracking with certification, and tools for managing corporate training contracts.
Tools Used: FastAPI, React, PostgreSQL, SQLAlchemy, Prisma, Neon DB, Docker.
- **Laravel-based POS system** *Vela BD Shop*
 The Laravel-based POS system offers user management, inventory tracking, sales processing, and reporting with features like bar-code scanning, multi-payment support, and financial tracking. It also includes tax management and detailed analytics for business efficiency.
Tools Used: Laravel, Javascript, PHP, HTML, CSS, Bootstrap, MySQL, JQuery.
- **BBIQ-Bangladeshi Business in Quebec Website.** *Bbiq*
 It is website for Bangladeshi Business in Quebec, Canada.
Tools Used: Laravel, livewire, PHP, javascript, JQuery , Bootstrap 5.
- **Website - DUET CSE FEST-2025** github.com/Efat-khan/DUET-CSE-FEST-2024-Laravel
 The DUET-CSE-FEST-2024 Laravel website will feature an engaging landing page showcasing event highlights, schedules, and updates, along with a gallery and registration system for participants. It will include an admin panel for managing events, notices, participants, and multimedia content seamlessly.
Tools Used: Laravel, Javascript, PHP, HTML, CSS, Bootstrap 5, MySQL ,JQuery.
- **Mother Trade automation** *Mother Trade automation Website*

This is a comprehensive institute management website designed to present all institutional information in a clean, organized, and user-friendly way. The platform allows the institute to publish notices, manage and enroll courses, and facilitate a digital marketplace where users can buy and sell books and other educational products. Additional features have been integrated to enhance usability, communication, and overall system efficiency, making the platform a complete solution for academic and institutional needs.

Tools Used: Laravel, PHP, JavaScript, JQuery, MySQL, HTML 5, CSS 3, Bootstrap 5.

ACHIEVEMENT

– **ITEE FE Exam (2024) – Achieved 15th rank in Bangladesh**

Oct, 2024

FE01-0007

LEADERSHIP & ACTIVITIES

Network & Communication Secretary, DUET Computer Society. DUET, Gazipur

Oct, 2024 – Oct, 2025

Collaborated with faculty and industry professionals to organize tech-focused events.

Convener, CSE FRESHERS RECEPTION & FAREWELL CEREMON 2024. DUET, Gazipur

Jan, 2024 - Apr, 2024

With strong management, leadership, organization, and communication skills, I am able to effectively lead teams, streamline processes, and foster collaboration to achieve organizational goals.

Senior Vice-President, Chandradip, Barisal Divisional Student's Welfare Association. DUET, Gazipur

Jan, 2024 - Jan 2025

Chandradip, Barisal Divisional Student's Welfare Association is a non-profit organization focused on enhancing students' work abilities, skill development, and the cultivation of communication and leadership skills. Its primary goal is to equip students with the necessary tools to succeed in their academic and professional careers.

VOLUNTEER EXPERIENCE

– **CSE 1st Reunion 2025, DUET** – Venue Management Team Member.

LANGUAGE SKILLS

Language	Reading	Writing	Listening	Speaking
Bengali	Excellent	Excellent	Excellent	Excellent
Japanese	Basic Proficiency	Basic Proficiency	Basic Proficiency	Basic Proficiency
English	Excellent	Excellent	Excellent	Good

PERSONAL DATA

Name: Efat Khan

Father's Name: Md. Faruk Khan

Present Address: Gazipur, Dhaka.

Permanent Address: Rari Mahal, Kawnia, Charbaria-8200, Barishal.

Nationality: Bangladeshi

Date of Birth: 01, Nov, 1999
